Approved For Release 2002/05/07 : CIA-RDP80B01676R003800130014-4

ER - November 30<sup>th</sup>

MacVeagh

Dear Allen

Fals

We read that Foster is coming to San Francisco to address the Chamber of Commerce and I suppose that is an effort to mend the political fences. I wonder if he realizes what his main handicap in California is - a while ago newspapers here came out with a headline to the effect that Dulles threatens that the U.S.A. will resume nuclear testing if the Russians do. The reaction in Calif. is "who is he threatening"? We are surrounded by scientists out here and they agree that "fall-out" is cumulative and the quickest way for humans to acquire some in their bodies is to inhale it from the air.

Approved For Release 2002/05/07 : CIA-RDP80B01676R003800130014-4

(EXECUTIVE REGISTRY FILE) has had fall-out.

Now everyone knows that Russians & Chinese are not accustomed to drinking much milk but all Americans, particularly Californians drink tons of it, both children and adults, so the question "who is he threatening?" makes some sense, and after the last nuclear tests in Nevada blowing this way Californians are very sensitive on the subject.

Another thing, of course, is that a number of people were frightened over the Quemoy question.

I thought that Foster handled that very well because he avoided Dean Acheson's mistake of saying we wouldn't fight for it while choosing his words carefully enough not to commit us to do it. Jack and I were perfectly confident that he never meant to fight for Quemoy because that would have been a perfectly idiotic thing to do.

also wants to do a little "getting out without  
losing face". If so, why don't we agree  
to that promptly and we can turn West  
Berlin over to West Germany and they  
can put their troops in to keep the city  
divided as the dual capital of the  
federated Germany. I think that  
ought to be an easy out for us and not  
make Germany much more potentially dangerous  
than she is, which we cannot prevent her  
being anyway. (When I say "potentially  
dangerous" I am talking of your grand-children  
time.) It is the German combination of great  
physical strength and virility with complete  
psychological "fidelity". Can be led anywhere.

we do wish you and Clara were here.  
Much love to you both from Jack and Bobbie Macbeath

All our foreign affairs lately seem to be  
 Much ado about Nothing. Obviously  
 no one here gives a hoot about either Germany  
 or Berlin, but I realize that you and Foster  
 know perfectly well that both those situations  
 are bound to deteriorate and that Foster  
 must be trying to get us out with as little  
 loss of face as possible. I can't see why  
 we make such a fuss about re-uniting Germany.  
 West Germany is already the most powerful  
 country in Europe and why build her up?

But the West Germans certainly don't want  
 to burden ~~themselves~~ <sup>themselves</sup> by integrating East  
 Germany into it. They talk about federation  
 of East and West Germany and ~~the~~ <sup>the</sup> ~~fact~~ <sup>fact</sup>  
 has come out for that too. Perhaps he
